

Property Analytics

The Property Research Website
for Real Estate Professionals

Designed for the Way You Work

The ValueCheck Property Analytics website combines comprehensive data with robust analytics and time-saving functionality. Now, you can quickly find a property, review recent comparable sales, and identify your best set of Comps. You also have integrated tools to determine an accurate valuation, farm an area, and gain market expertise. What's more, you'll find streamlined title ordering, document requests, reports and more.

An easy-to-use website that matches your workflow...

- **Property Search** – Find a property by partial address or owner name
- **Map View** – Review the “big-picture” of a property location visually
- **Table View** – Compare properties and evaluate comprehensive data points
- **Comparables** – Filter your criteria for the best set of Comps
- **Value Analyzer** – Trend historic sales forward for accurate valuations
- **Express Farm** – Analyze the entire population of a market area (downloads available)
- **Title Orders** – Order title products for a property, including \$5 O&E Reports, Titles and more
- **Documents** – Request documents for a property from the county
- **Reports** – Print-friendly views as well as complete and customizable PDF reports
- **Mobile** – A mobile-friendly website that you can access from your desktop, tablet or phone
